**Note:** The charter school information in the AFT press release regarding the release of the 2005 NAEP data was obtained through the NAEP Data Explorer, an online statistical software tool available to the public at: <http://nces.ed.gov/nationsreportcard/nde/>. The information in the NAEPCharterSchoolComparisons.xls workbook (requires Microsoft Excel spreadsheet software) contains copies of the statistical output obtained through the NAEP Data Explorer. The workbook contains 13 separate worksheets that can be accessed by clicking on the labeled tabs at the bottom of each sheet. The AFT is preparing a short report on the charter school data with a narrative.
