

We Want to be Ready ... education is the key.

Exciting things are happening in our classrooms. Have you heard about it?

Common Core State Standards are a clear set of shared goals and consistent practices being implemented in our classrooms K through 12. This will help students like us be on an equal playing field with other students across the country. We'll not only learn, but we'll also understand, comprehend and employ the critical thinking skills we'll need to compete in the 21st century workplace.

CommitToTheCore.org

- To ensure our kids can meet college and workplace expectations
- To compete in the world
- To succeed in life
