

Education is the Key to the success of our children.

That's why we are Committed to the Core, an exciting initiative in education that is coming to our classrooms.

Common Core State Standards are a clear set of shared goals and consistent practices being implemented in our classrooms K through 12. This important initiative has been developed to ensure our students, no matter where they live, will be focused on graduating from high school prepared for post-secondary education and careers.

Let's work together to make sure our students are prepared for the Common Core State Standards.

CommitToTheCore.org

- To ensure our kids can meet college and workplace expectations
- To compete in the world
- To succeed in life
