AFT + MEMBER BENEFITS

Your Union. Your Benefits. Your Power.

AFT members fight for a better life for all—at work, in our communities and for our families. And when we stand together, we build power that improves everyday life.

That's the idea behind AFT + Member Benefits. By joining together through our union, AFT members have built a marketplace that uses the collective strength of our 1.8 million members to provide practical help beyond the workplace. From everyday discounts and financial tools to free trauma counseling and student debt support, these benefits are designed to help members navigate the challenges working families face today.

Because fighting for a better life means fighting for what people actually need—financial security, support for their families and the peace of mind that comes from knowing your union has your back.

AFT + Member Benefits is one more way collective power improves the lives of members and their families.

“”

Our union, the AFT, fights so that those we serve and those we represent can build a better life. Our members make a difference every day: educating students, caring for patients and strengthening communities—work that touches nearly every family in America.

The 1.8 million-strong AFT fights for good wages and benefits, a real voice at work, strong public schools and services, and accessible, affordable healthcare and higher education. We fight for a democracy that works for the people—not just the powerful—and we fight for the opportunities and pathways that allow all our students, families and members to thrive.

That mission is even more urgent today. Families are being squeezed by rising costs, new technologies are reshaping work and learning, and divisions are deepening across our country.

You are a vital part of this work. When members like you are involved, we build the power to achieve together what no one can accomplish alone.

Thank you for being part of your union—the AFT.

AFT President

COMMUNITY BENEFITS

Our community benefits highlight how we protect our kids and communities and fight for the promise of America—for opportunity, dignity, respect and a better life for all.

Reading Opens the World

aft.org/read

Reading is a foundational skill that opens possibilities for children to succeed in school, career and life. Reading well instills confidence and helps reduce inequities. The disruptions caused by the pandemic have made focusing on literacy even more important, to help our students not only catch up but also thrive. That's why the AFT launched Reading Opens the World, a nationwide effort to get books into the hands of children and help families and educators build a love of reading. Since 2011, the program has distributed more than 10 million books and literacy resources through schools, libraries and community organizations—bringing the joy and power of reading to communities across the country.

First Book

firstbook.org

First Book is AFT's main literacy partner. We have partnered to distribute millions of books (over 10 million and counting) to classrooms and programs serving students and families in need and have connected thousands of educators and staff to ongoing resources. Through our partnership, we support children's well-being with access to new high-quality books as well as school supplies and basic-needs items at 50 to 90 percent off retail costs (and in some cases for free). We also help build teacher and school staff capacity by highlighting new and diverse authors and books, along with tip sheets and suggested activities.

Community Schools

aft.org/position/community-schools

The community schools strategy transforms public schools into hubs that support students, families and entire communities. By partnering with food banks, healthcare providers, social service agencies and local organizations, community schools help meet students' academic, social and emotional needs so educators can focus on teaching and learning.

The AFT has long championed this approach and has helped support nearly 900 community schools nationwide.

Career and Technical Education

aft.org/position/career-and-technical-education

The AFT aims to expand career and technical education by connecting learning to real opportunities in high-demand fields. Through partnerships with employers, unions and community organizations, students can earn industry-recognized credentials, gain hands-on experience and explore career pathways before graduation. From advanced manufacturing programs in New York to healthcare partnerships in Cleveland that allow students to earn certificates while still in high school, these efforts help prepare students for good jobs and a strong future. The goal is for every student to have access to engaging pathways that connect learning to opportunity.
